SUPPLEMENTAL PETITION UNDER 37 C.F.R. §1.181 FOR CORRECTION OF PATENT TERM EXTENSION

Mail Stop Petitions

Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Dear Sir:

In accordance with 37 C.F.R §§ 1.701(a)(1) and 1.701(c)(1)(i) and pursuant to 35 U.S.C. § 154(b), Applicants hereby Petition the Director under 37 C.F.R §1.181 to correct the patent term extension for the present application. (See MPEP § 2720.)

Patent Term Extension of U.S. Patent No. 7,376,453

The present application issued on May 20, 2008 as U.S. Patent No. 7,376,453 with an indicated patent term extension under 35 U.S.C. § 154(b) of 130 days. The present application was subject to an interference proceeding under 35 U.S.C. § 135(a), which delayed issuance. Applicants submit that the indicated patent term extension of 130 days is incorrect because this amount reflects only the amount of delay from the date of the declaration of the Interference to the date of favorable judgment for Applicants. As set forth below, Applicants submit that the indicated 130 days does not account for the entire delay due to interference proceedings under 37 C.F.R. § 1.701. The entire delay should also include the delay from the date of favorable judgment until the date the application was dispatched from the Board of

Patent Appeals and Interferences ("BPAI") to the Technology Center for Examiner review. Additionally, the entire delay should include delay due to Examiner initiated suspensions due to interference proceedings.

The Applicants Agree that the Patent Term Extension Should Include the Indicated 130 Patent Term Extension Reflects the Delay from the Declaration of Interference to Favorable Judgment

Interference No. 105,472 ("the Interference") was declared involving the present application on July 18, 2006. As evidence of the declaration of interference and the date thereof, Applicants provide herewith **Exhibit A**, which is a copy of the declaration of interference and notice thereof ("Notice and Declaration of Interference"), which were mailed to Applicants on July 18, 2006. The Notice and Declaration of Interference can be found on the Patent Application Information Retrieval system of the USPTO website ("PAIR"), labeled as entry "Miscellaneous Communication to Applicant – No Action Count" and dated July 18, 2006 on the "Image File Wrapper" tab associated with the present application. (See **Exhibit C**.)

Applicants received a favorable judgment for Interference No. 105,472 on November 24, 2006. As evidence of the favorable judgment, Applicants provide herewith **Exhibit B**, which is a copy of the judgment, and which can be found on PAIR and is labeled as entry "Interference Miscellaneous" and dated November 24, 2006 on the "Image File Wrapper" tab associated with the present application.

The present application was filed on November 17, 1998 and thus falls under 37 C.F.R. § 1.701 (pertaining to applications filed between 1995 and 2000). The amount of delay from the date the Interference was declared on July 18, 2006 and the date judgment was entered on November 24, 2006 was 130 days. However, as set forth below, Applicants submit that 130 days does not reflect the entire delay due to the interference under 37 C.F.R. § 1.701.

The Patent Term Extension Should Also Include the 393 Day Delay From the Date of Favorable Judgment to the Date of Dispatch to the Technology Center Under 37 C.F.R. § 1.701(c)(1)(i)

Applicants submit that the patent term extension should be adjusted by at least an additional <u>393 days</u> because, following judgment on November 24, 2006, the

09/144,897

Filed

application was not dispatched from the Board of Patent Appeals and Interferences ("BPAI") to the Technology Center for Examiner review until December 21, 2007. As evidence of the date of dispatch to the Examiner, Applicants provide herewith **Exhibit D** and **Exhibit E**, which are copies of the "Patent Term Extension History" tab and the "Transaction History" tab on PAIR and associated with the present application. (See entries labeled "Interference Dispatch to TC" on **Exhibit D** and **Exhibit E**, respectively.)

37 C.F.R. § 1.701 reads, in part:

- (a) A patent, other than for designs, issued on an application filed on or after June 8, 1995, is entitled to extension of the patent term if the issuance of the patent was delayed due to:
 - (1) Interference proceedings under 35 U.S.C. 135(a);
- (c)(1) The period of delay under paragraph (a)(1) of this section for an application is the sum of the following periods, to the extent that the periods are not overlapping:
- (i) With respect to each interference in which the application was involved, the number of days, if any, in the period beginning on the date the interference was declared or redeclared to involve the application in the interference and ending on the date that the interference was terminated with respect to the application;

Thus, 37 C.F.R. § 1.701(c)(1)(i) indicates that the time period for patent extension determination "begin[s] on the date the interference was declared ... and end[s] on the date that the interference was terminated." Applicants submit that the Interference was not "terminated" within the meaning of C.F.R. § 1.701(c)(1)(i) until the date the BPAI dispatched the case to the Technology Center for Examiner Review on December 21, 2007. This is evident in light of the wording of 37 C.F.R. § 701(a)(1) which allows for "extension of patent term if the issuance of the patent was delayed *due to* ... (1) Interference proceedings under 35 U.S.C. § 135(a)." 37 C.F.R. § 701 allows for patent term extension for delay caused by interference proceedings, which includes any delay caused by the BPAI in dispatching the case back to the Technology Center for further Examiner review. Former 35 U.S.C. § 154(b), which serves as the basis for 37 C.F.R. § 701, provides further support for this reading. For example, former 35 U.S.C. § 154(b), reads, in part:

(b) TERM EXTENSION.-

09/144,897

Filed

September 1, 1998

(1) INTERFERENCE DELAY OR SECRECY ORDERS.-If the issue of an original patent is delayed due to a proceeding under section 135(a) of this title ... the term of the patent shall be extended for the period of delay, but in no case more than 5 years. (See MPEP § 2720.)

Any delay from the time of judgment by the BPAI until the case was dispatched to the Technology Center for Examiner review is a "delay[] due to a proceeding under section 135(a)," and the patent term extension should be adjusted by at least the requested additional 393 days reflecting this delay.

The Patent Term Extension Should Also Include the 247 Day Delay Due to the Examiner Initiated Suspension of Prosecution Due to Interference Proceedings Under 37 C.F.R. § 1.701(c)(1)(ii)

Applicants submit that the patent term extension should be adjusted by at least an additional **247 days** because of Examiner initiated suspensions due to interference proceedings.

37 C.F.R. § 1.701 reads, in part:

- (a) A patent, other than for designs, issued on an application filed on or after June 8, 1995, is entitled to extension of the patent term if the issuance of the patent was delayed due to:
 - (1) Interference proceedings under 35 U.S.C. 135(a);
- (c)(1) The period of delay under paragraph (a)(1) of this section for an application is the sum of the following periods, to the extent that the periods are not overlapping:
- (ii) The number of days, if any, in the period beginning on the date prosecution in the application was suspended by the Patent and Trademark Office due to interference proceedings under 35 U.S.C. 135(a) ...

Prosecution of this application was suspended twice by the Examiner due to a potential interference. The first suspension was for a period of six months and began on July 2, 2003. The second suspension was for a period of three months and began on May 16, 2006. As evidence of the suspensions, Applicants provide **Exhibit F** and **Exhibit G**, which are copies of the examiner initiated first and second Letters of Suspension, respectively, and which can be found on the "Image File Wrapper" tab associated with the present application on PAIR labeled as entries "Miscellaneous Action with SSP", dated July 2, 2003, and "Letter of Suspension – Examiner Initiated",

09/144,897

Filed

dated May 16, 2006, respectively. Because the application was "suspended by the Patent and Trademark Office due to interference proceedings under 35 U.S.C. 135(a)" per 37 C.F.R. § 1.701(c)(1)(ii), Applicants submit that the patent term extension should be adjusted to reflect the appropriate 247 delay.

Applicants submit that the entire 184 day delay due to the first suspension should be added to the patent term extension. The second suspension overlapped with the amount of delay due to the eventual interference involving the present application and Applicant submits that, under 37 C.F.R. § 1.701(c), the non-overlapping period of 63 days should also be added to the patent term extension. As such, Applicants submit that the requested additional 247 days reflect the cumulative total of the first suspension and the non-overlapping portion of the second suspension, and should be added to the patent term extension.

Summary

Applicants submit that the present application was delayed by at least 393 days in addition to the indicated 130 days due to an interference proceeding in which the application was involved. Moreover, the present application was delayed by 247 days due to suspension of prosecution of the application due to interference proceedings. As such, the Applicants submit that the patent term extension should reflect the cumulative total of <u>770 days</u> of delay due to interference proceedings pursuant to 37 C.F.R. § 1.701, not the indicated 130 days of delay, and request that the patent term extension be corrected to reflect at least this 770 day amount.

No fee is deemed due under 37 C.F.R § 1.181 as neither 37 C.F.R. § 1.181 nor 37 C.F.R. §1.701 indicate that a fee is due in conjunction with a Petition under 37 C.F.R §1.181. However, in the event that a fee is due, please charge any additional fees, including any fees for additional extension of time, or credit overpayment to Deposit Account No. 11-1410.

All claims are allowable. The prior art teaches methods and apparatus for enhancing physiological signals for the measurement of blood oxygen in a subject including irradiating a patient with two wavelengths and detecting light that has passed through the patient, wherein the detected light includes a interference portions. However, the prior art does not teach or suggest a method or apparatus that uses an adaptive signal processor and reference signal generator to process the detected signals and a peak detector to receive an output signal from the adaptive signal processor and determine a calculated value, as set forth in the claims.

However, due to a potential interference, ex parte prosecution is SUSPENDED FOR A PERIOD OF 6 MONTHS from the date of this letter. Upon expiration of the period of suspension, applicant should make an inquiry as to the status of the application.
